April 15, 2021

To whom it may concern,

We recommend "Ahmed Hrabi" based on the proven contribution in driving the DSC Higher Institute of Applied Sciences and Technology of SOUSSE in 2020-2021, he acted as a DSC Core Team, where he made a significant impact on the communities via training hundreds of students and helping them to submit their project on the Google Solution Challenge 2021 by organizing and mentoring several events in the Great Maghreb Region.

Ahmed Hrabi has shown very good qualities in being a responsible and committed person. What makes him unique is the eagerness to learn, share the knowledge with the community, collaborate with others, and motivate other team members as well.

Developer Student Clubs focus on Helping students bridge the gap between theory and practice. DSCs are university based community groups for students interested in Google developer technologies. Students from all undergraduate or graduate programs with an interest in growing as a developer are welcome. By joining a DSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their community. further info can be found here:
https://developers.google.com/community/dsc

We thank you for your support to the students' communities.

Very truly yours,

Salim Abid
